Response to Arguments

Applicant's arguments filed November 22, 2004 have been fully considered but they are not persuasive. As to the remarks, applicants asserted that:

"The Examiner has prematurely made the pending official action final. It is premature, because he has presented a new grounds of rejection as to pending claims 1-10 and 21-25 with the application of newly cited prior art".

Examiner respectfully disagrees with applicants' arguments for the following reasons. Examiner would like to point out that MPEP 706.07(a) states that "a second or any subsequent actions on the merits shall be final, except where the examiner introduces a new ground of rejection that is neither necessitated by applicant's amendment of the claims nor based on information submitted in an information disclosure statement filed during the period set forth in 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p)".

It is noted that Paragraph 21 of the Final Rejection dated June 17, 2004 in response to applicants' amendment filed March 11, 2004 states that "Applicant's amendment necessitated the new grounds of rejection presented in the Office action". Thus, the Final Rejection dated September 17, 2004 is a subsequent action on the merits to the Final Rejection dated June 17, 2004, and is <u>still</u> necessited by applicants' amendment filed March 11, 2004. As a result, Applicants response <u>cannot</u> be treated as an amendment of right and the amendment will not be entered.
